<p>متن زیر را به دقت بخوانید و به سوالات به شکل خواسته شده پاسخ دهید.</p> <p>The inventors of the first airplane were not scientists. In fact, they didn't even finish high school. They were just two ordinary brothers with a big dream, the dream of flying. Orville and Wilbur Wright grew up in Indiana in a large family. Instead of sitting in class and reading, they wanted to work and make different things like machines. When the brothers were 18 and 22 years old, they started up their own bicycle shop in 1899.</p> <p>One day, Wilbur read an interesting story in a newspaper about a man <u>that</u> tried to fly by means of a glider. The man died, but the story gave Wilbur an idea. He decided to teach himself about flying in order to make a better glider. Together, Orville and Wilbur successfully tested their new glider on a rocky beach. Then the brothers decided to turn their glider into a flying machine. They put an engine on the glider and called their new machine the "Wright Flyer." The plane broke down on its first test, but the Wright brothers didn't give up. With a little more hard work, the Wright Flyer made a successful flight. On December 17, 1903, the Wright brothers made history by flying the Wright Flyer over a beach in Carolina.</p>	<p>7</p>
<p>4</p> <p>1. What is the best title for the passage?</p> <p>a) The First Glider b) American Inventions</p> <p>c) Two Brothers' Dream d) How Airplanes Fly</p> <p>2. Which of the following is TRUE about the Wright brothers, according to the passage?</p> <p>a) They learned about airplanes from a scientist.</p> <p>b) They were good students at school.</p> <p>c) They didn't succeed at first, but they kept trying.</p> <p>d) They sold their shop to buy an engine for their plane.</p> <p>3. What does the underlined word "that" in paragraph 2 refer to?</p> <p>a) man b) newspaper c) story d) Wilbur</p>
