<p>C</p>	<p>Read the passage and answer the questions. When you are at home ,rest and relaxation are just as important to our body as exercise and healthy eating. If you don't get enough of them you can make yourself ill. Your body is a bit like a battery. If it is not allowed to recharge itself through sleep and relaxation it may stop working properly. Lack of sleep affects our ability to think. When you dream, your brain may be clearing itself out and preparing itself for the next day's thinking. During your youth, you need at least eight hours sleep a night. If you stay out late, try to go to bed early the next night. The effects of lack of sleep can build up over several days. When you are awake you put many pressures on your mind and body. Your body needs a period of rest to repair itself and prevent it from getting tired. During sleep, elements called hormones cause body muscles to grow and repair themselves. If you have usually troubles getting to sleep, try reading a book to calm your mind or take some exercise and avoid tea, coffee or food before bedtime. A hot milky drink, may help you relax.</p>  <p>57. What should you do to keep healthy? 58. How does sleep affect your body? 59. To be healthy, you just need physical exercise and good food.
